

CARLOS LAREDO

Software tech Engineer

Cellphone Repair Technician

About Me

I am an active student currently cursing 5th semester of Software Technology Engineering at **FIME, UANL**, with experience in technology for years, always looking to learn the latest technologies. I am fluently in **English** and I am excited to be part of something greater and bigger and looking forward to contribute on the companies that are changing how we live our life's with software.

Experience

Self Employed Repair Technician

Lead Repair Technician

After learning to repair cellphones by being in Rescata, I opened a repair shop in *Plaza de La Tecnologia*, and after being there 6 months I decided to continue doing repairs of cellphones, tablets, PC, videogame consoles by my self while I continue my university.

Rescata Mi Smartphone

Lead Repair Technician

In my time working in Rescata as a lead repair technician, I was responsible of everything in the shop, the being manly repairing every cellphone and tablet we received, making the full sell, using the cash register, dealing with clients and the warranties, managing the spare parts inventory and making payments of the rent of the island, also I was making sales work by offering accessories and maintaining services.
